Tour Information

REWASTE | YARRA VALLEY WATER

Vic Bioenergy Network

Friday 23 Feb 2024 09:15am & 10:15am (2 x 20pax)

Key Contacts

Manager Waste to Energy Services	Stephanie Salinas	0499 826 669
Manager Waste to Energy Operations	Ajit Shiwakoti	0401 129 680
Waste to Energy Officer	Georgia Brown	0406 292 344

Safety Requirements

- Please wear long pants and long sleeves
- High visibility vest (can provide as needed but please bring your own if possible)
- Enclosed, non-slip shoes, no heel
- Please stay in a tight knit group due to moving plant and heavy vehicle on the site
- Always follow instructions of your tour guide (or any Yarra Valley Water or Aquatec Maxcon representative) and do not venture away from the group
- Bring an appropriate warm coat/jacket as site does get cold and windy in the wintertime and we will be outside
- Due to the nature of some feedstocks processed at the site, we would recommend that if anyone is pregnant that they do not attend due to the bacteria that can become airborne.
- Please note that ReWaste processes organic waste and is located adjacent to the Aurora Sewerage Treatment plant. As such during a tour within operational hours localised odour may be present
- Parking is located between the Sewer Treatment Plant and ReWaste gates along site the STP offices on the outside of the mesh fence
- Electric vehicle charging can be provided with prior notice
